

## Web Developer

Solutions-driven and innovative professional with progressive experience in overseeing all aspects of web development, enhancing web functionality and user experiences.

Experienced in leveraging front-end technologies like HTML5, CSS3, JavaScript, and React, alongside back-end tools such as Node.js and Express to create interactive and user-friendly web applications. Expert at collaborating effectively in agile environments, ensuring timely delivery of high-quality code. Excel in translating intricate Figma/Sketch designs into dynamic web features, improving customer engagement. Proficient in optimizing web applications, achieving substantial gains in page load efficiency.

## Technical Proficiencies

**Frameworks:** Next.js, React | **Languages:** JavaScript, Typescript

**Front-End:** SASS, Tailwind CSS, Webpack | **Back-End:** Node.js, PHP

**Other:** CMS, Cross browser compatibility, Figma, Git/GitHub, Jest/Mocha, SEO, UI/UX, WCAG

## Professional Experience

[Marv-dev](#), Glasgow, UK

2023 — Present

### Freelance Web Developer

Engineer custom components to enhance site/application functionality and improve owner and user experiences. Translate complex design specifications into interactive web features, boosting customer engagement and web traffic. Integrate back-end components seamlessly with front-end applications to ensure full-stack coherence and efficiency.

- Elevated user satisfaction by 20% through enhancements in application functionality across various platforms.
- Achieved a 40% improvement in page load times by meticulously testing and streamlining web pages.
- Self-taught the Shopify ecosystem and independently built a fully operational online store within one month.
- Optimized page elements to reduce load times, ensure smooth user experiences, and increase customer satisfaction.

*Additional 11 years experience as an **international school teacher***

# Key Projects

[Vapester](#) – Custom Shopify Storefront ( store password: *eamaos* )

2023 — 2024

Tech: [HTML](#) | [CSS](#) | [JS](#) | [Liquid](#) | [AJAX](#) | [CMS](#) | [Git](#) | [NPM](#)

- Developed a custom e-commerce website design using Shopify's CMS to streamline product management.
- Implemented AJAX API to improve cart functionality without refreshing the page, thus improving user interaction.
- Enhanced user experience by optimizing page components for faster loading times and improved cross-browser support.
- Worked closely with the client to establish the desired aesthetic, UX/UI, and product management system.

[Kanban](#) - Full Stack Agile Task Management Web App

2023 — 2023

Tech: [React](#) | [Tailwind](#) | [Firebase](#) | [Redux](#) | [Figma](#) | [Node.js](#) | [Git](#) | [NPM](#)

- Transformed Figma design into React implementation.
- Utilized Redux for state management and Firebase for authentication and data storage.
- Implemented comprehensive CRUD functionalities to improve user experience.
- Created modular React components for tasks, subtasks, and columns to facilitate code reusability on the client side.

[TrailerView](#) – Full Stack Entertainment Web App

2023 — 2023

Tech: [Next.js](#) | [Tailwind](#) | [MongoDB](#) | [NextAuth](#) | [API](#) | [Node.js](#) | [MUI](#) | [Git](#) | [NPM](#)

- Developed using Next.js for server-side rendering, routing, and API routes.
- Integrated TMDb API via Node.js to retrieve movie and TV show metadata.
- Incorporated SwiperJS for creating client-side interactive section carousels to boost user engagement.

## Education

[Postgraduate Certificate in Education](#)

Nottingham University, Nottingham, UK

[Bachelor of Science in Multimedia Engineering](#)

Glasgow Caledonian University, Glasgow, UK
