

Web Developer

I'm a web developer with a strong frontend foundation in React and Next.js, and a growing appetite for full stack work. I've built production UIs, RESTful APIs, and end-to-end integrations across a range of client projects — and I'm looking to do more across the whole stack, not just the visible layer.

I've worked across agency environments delivering for a range of clients, industries, and tech stacks. I build AI agentic workflows, shared component libraries, and design systems that cut delivery time without cutting corners. I work well with design and product teams, I'm comfortable making technical decisions independently, and I take ownership of what I ship.

Technical Proficiencies

Frontend: React, Next.js, TypeScript, JavaScript, Redux

Backend & APIs: Node.js, Express.js, REST APIs, PHP, MongoDB, Firebase, SQL

Styling & UI: Tailwind CSS, SASS, CSS Modules, Framer Motion, GSAP, Storybook

Platforms & CMS: WordPress, Shopify, Webflow, Framer, Storyblok, Contentful, HubSpot

Tooling & Testing: Git/GitHub, Figma, Claude Code + MCP, Jest, Playwright

Analytics & SEO: Google Analytics/GA4, Screaming Frog, SEMrush

Professional Experience

Studio East [Design/Marketing Agency], London, UK

October 2023 — December 2025

Web Developer (remote)

Built and maintained websites and web applications for clients across different industries, working across the full stack with React/Next.js, Node.js/Express, WordPress, and Shopify. Handled everything from small business sites to e-commerce stores and internal tooling — including API development, third-party integrations, and expansion of existing platforms. Consistently delivered to a high quality bar — maintaining 95+ Lighthouse scores across performance,

accessibility, and SEO on live client projects.

- Built an AI agentic development pipeline integrating Figma MCP, automated Playwright testing, and debugging workflows — reduced project delivery time by 70% while maintaining production quality standards.
- Developed RESTful APIs with Node.js and Express to connect React frontends with headless CMS platforms including Storyblok and WordPress, handling authentication, caching, and data transformation layers.
- Built and documented a design system and component library using Storybook, Framer Motion, and GSAP — scroll effects, parallax, and micro-interactions — adopted as the standard across all agency projects.
- Owned stack selection across projects — matched technology to client requirements and turned around multiple at-risk projects through strategic re-platforming.
- Ensured WCAG 2.1 accessibility compliance, cross-browser compatibility, and technical SEO standards across all client projects.
- Built React frontends for web applications connected to Docker-backed services, handling API consumption, state management, and UI architecture on the client side.

Freelance Web Developer

January 2021 — October 2023

Delivered 20+ websites and e-commerce stores for small businesses and agencies, working across WordPress, Shopify, React, and Next.js. Took on both direct client projects and subcontractor work, collaborating with designers and copywriters to turn Figma designs into production-ready sites.

- Built and maintained websites for small businesses and e-commerce clients using WordPress, Shopify, React, and Next.js. Handled both direct client work and agency subcontracting.
- Partnered with designers and copywriters to customize themes and translate Figma designs into pixel-perfect, responsive sites that met client requirements.
- Managed projects end-to-end: client communication, design implementation, CMS configuration, and deployment. Delivered on time across varying budgets and technical requirements.

Taught IT at international schools across Korea, Vietnam, Thailand, Taiwan, and Japan. Developed curriculum for web development and digital literacy while managing school technology infrastructure and supporting staff with technical needs.

Education

[Postgraduate Certificate in Education \(PGCE\)](#) | 2018

Nottingham University, Nottingham, UK

[Bachelor of Science in Multimedia Engineering \(Hons\)](#) | 2012

Glasgow Caledonian University, Glasgow, UK

Certifications

[IBM Prompt Engineering](#) | Cognitive Class | September 2025

[Technical Writing](#) | Technical Writer HQ | August 2021
