

Frontend Developer

I'm a frontend developer who specialises in turning designs into fast, polished interfaces. I work primarily in React and Next.js, building component-driven UIs with a strong focus on animations, performance, and accessibility. I use modern tooling and AI agentic workflows to ship production-quality work efficiently.

I've built shared component libraries, design systems, and AI agentic workflows that meaningfully cut delivery time. I've worked across agency environments delivering production frontend work for a range of clients, industries, and tech stacks. I work well with design teams, I'm fluent in Figma, and I take ownership of the frontend without needing my hand held.

Technical Proficiencies

Frontend: React, Next.js, TypeScript, JavaScript, Redux

Backend & APIs: Node.js, REST APIs, PHP

UI, Components & Animation: Tailwind CSS, SASS, CSS Modules, Framer Motion, GSAP, Storybook

Platforms & CMS: WordPress, Shopify, Webflow, Framer, Storyblok, Contentful, HubSpot

Tooling & Testing: Git/GitHub, Figma, Claude Code + MCP, Jest, Playwright

Analytics & SEO: Google Analytics/GA4, Screaming Frog, SEMrush

Professional Experience

Studio East [Design/Marketing Agency], London, UK

October 2023 — December 2025

Frontend Developer (remote)

Owned frontend delivery across React/Next.js, WordPress, and Shopify for a range of clients and industries. Built and maintained client-facing websites and web applications — including React frontends connected to Docker-backed services — handling everything from component architecture and animations through to performance, accessibility, and deployment. Consistently delivered to a high quality bar — maintaining 95+ Lighthouse scores across performance,

accessibility, and SEO on live client projects.

- Built an AI agentic development pipeline integrating Figma MCP, automated Playwright testing, and debugging workflows — reduced project delivery time by 70% while maintaining production quality standards.
- Developed a shared component library with Framer Motion and GSAP animations — scroll effects, parallax, and micro-interactions — adopted as the standard across all agency projects.
- Built and documented a design system using Storybook, giving the team a single source of truth for components and significantly reducing inconsistencies between design and build.
- Ensured WCAG 2.1 accessibility compliance and cross-browser compatibility across all client projects.
- Integrated React frontends with headless CMS platforms including Storyblok and WordPress, ensuring clean data flow between content editors and the UI layer.
- Led stack selection decisions per project — Next.js for SEO-heavy public sites, React for auth-gated applications, Webflow for marketing pages.

Freelance Web Developer

January 2021 — October 2023

Delivered 20+ websites and e-commerce stores for small businesses and agencies, working across WordPress, Shopify, React, and Next.js. Took on both direct client projects and subcontractor work, collaborating with designers and copywriters to turn Figma designs into production-ready sites.

- Delivered 20+ websites and e-commerce stores across WordPress, Shopify, React, and Next.js—mix of direct client work and agency subcontracting.
- Translated Figma designs into pixel-perfect, responsive frontends across a range of industries, brands, and budgets.
- Managed projects end-to-end: client communication, design implementation, CMS configuration, and deployment. Delivered on time across varying budgets and technical requirements.

International School IT teacher

May 2012 — February 2023

Taught IT at international schools across Korea, Vietnam, Thailand, Taiwan, and Japan. Developed curriculum for web development and digital literacy while managing school technology infrastructure and supporting staff with technical needs.

Education

[Postgraduate Certificate in Education \(PGCE\)](#) | 2018

Nottingham University, Nottingham, UK

[Bachelor of Science in Multimedia Engineering \(Hons\)](#) | 2012

Glasgow Caledonian University, Glasgow, UK

Certifications

[IBM Prompt Engineering](#) | Cognitive Class | September 2025

[Technical Writing](#) | Technical Writer HQ | August 2021
